

Hand Blast Machine Educt-O-Matic

This high quality brand belongs to the product group „dust control and wetblasting“. The mobile system is characterized by a closed-circuit system with a minimum of dust emission. Another benefit: The closed-circuit system needs fewer protective measures to assure operator safety.

+ **Minimal dust emission**

+ **Portable and easy to use**

+ **Minimal operator protection required**

**Engineered
by Clemco**

Hand Blast Machine Educt-O-Matic

The Educt-O-Matic is a compact hand blast machine with simultaneous recirculation and separation of the blast media and the generated dust. The different mouthpieces fit to diverse surfaces.

Area of application	dust free blasting rust removal matting and smoothing of surfaces cleaning and preparing of welds paint and dirt removing bare metal blasting
Air consumption	1500 - 2000 l/min (standard nozzle)
Abrasive media	corundum (0,2-0,8mm), steel shot (0,2-0,3mm)
Blasting pressure	0 < > 7 bar
Operating temperature	-15°C < > +50°C
Restrictions	not suitable for wet, oily and sticky surfaces
