

## **Wet Blast Head KB-52-1**

This high quality brand belongs to the product group „dust control and wetblasting“. The mobile system is characterized by a closed-circuit system with a minimum of dust emission. Another benefit: The closed-circuit system needs fewer protective measures to assure operator safety.

+ **Minimal dust emission**

+ **Portable and easy to use**

+ **Minimal operator protection required**

**Engineered  
by Clemco**

### **Wet Blast Head KB-52-1**

The wet blast head enters water directly into the blast media flow at the nozzle to prevent the formation of dust. The KB-52 is compatible with every coarse thread nozzle 50mm and the water flow is adjustable.

Area of application	for every coarse thread washing (air and water) wet blasting (air, water and abrasive media) air-drying dry blasting (air and blast media)
Blasting pressure	0 < > 8 bar (with water pressure pump W-92)
Application	in combination with water pressure pump W-92 (5-6bar)
Restrictions	not suitable for NHP-0
