

Wet Blast Head WBH

This high quality brand belongs to the product group „dust control and wetblasting“. The mobile system is characterized by a closed-circuit system with a minimum of dust emission. Another benefit: The closed-circuit system needs fewer protective measures to assure operator safety.

+ **Minimal dust emission**

+ **Portable and easy to use**

+ **Minimal operator protection required**

**Engineered
by Clemco**

Wet Blast Head WBH

The WBH convinces with its simple construction and the easy installation directly on the nozzle. By using water during the blasting process, the dust particles will be bonded in water and a dust-free operation is achieved.

Area of application

dust free blasting
