

BIG CLEM Bulk Blast Machine

This high quality brand belongs to the product group “pressure blast systems”. Only the perfect configuration and match of all system components in a blast machine enable maximum blasting efficiency. Therefore Clemco offers an extensive and complete range of quality products.

BIG CLEM Bulk Blast Machine

Our Big Clem blast machines are constructed especially for large jobs. With standard tank volumes between 1.500l and 4.600l there is no job to big and it offers options for the installation of several operator connections. The setup of the Big Clem is very flexible and can be fit to your special needs, either for fixed installation or mobile usage. With customised solutions, we are also able to produce tank volumes with more than 5000l.
