

## ***Blast room - Blast booth***

This high quality brand belongs to the product group “industrial systems”. Specialized engineers develop tailor-made solutions according to the customer-relevant technical, safety and performance requirements in order to meet every challenge in the steel industry.

### **Blast room - Blast booth**

Customised blast room systems and blast booths are the perfect solution for large work pieces. Clemco employees and specialized distributors are working methodically with every single client to identify exactly what is needed. Based on these data, our engineers are able to develop a tailor-made solution for your specific business, always concerning security matters, efficiency and productivity. Clemco quality blast rooms are setting international standards in the abrasive blast business with every detail reflecting this.

Surface preparation in a complete blast room or booth system is supporting the process quality, security matters and cost effectiveness. A coordinated recovery system obtains a maximum of recyclable abrasive media, which means a maximum cost advantage. The dust extraction system provides optimal sight for perfect blasting results, fulfilling highest safety and environmental directives.
