

Soft Nozzle

This high quality brand belongs to the product group „dust control and wetblasting“. The mobile system is characterized by a closed-circuit system with a minimum of dust emission. Another benefit: The closed-circuit system needs fewer protective measures to assure operator safety.

+ **Minimal dust emission**

+ **Portable and easy to use**

+ **Minimal operator protection required**

**Engineered
by Clemco**

Soft Nozzle

The soft nozzle can be connected with every blast machine and enables a dust-free operation, as it pumps water into the blast stream of the nozzle. The robust construction with tungsten carbide allows a long tool life.

| | |
|---------------------|--------------------|
| Area of application | dust free blasting |
| Water pressure | >2 - 12 bar |
| Water consumption | 0,5 - 6l/min |
| Blasting pressure | 0 < > 12 bar |
