

Abrasive Media Belt Conveyor

This high quality brand belongs to the product group “industrial systems”. Specialized engineers develop tailor-made solutions according to the customer-relevant technical, safety and performance requirements in order to meet every challenge in the steel industry.

Belt Conveyor

A belt conveyor enables the horizontal transport of abrasive blast media. The V-form of the conveyor is especially designed for abrasives and allows a maximum speed of 0,6m/s. The belt conveyor is typically used for fixed installations where high recovery rates are essential.

Area of application	transport of abrasive media
Total dimension: W x H x D *	450 x 270 mm
Length	min. 3 meters mm
* +/- Values, may differ depending on configuration, arrangement and function.
