

Comfort Vest

This high quality branded product belongs to the product group “operator protection”. The first priority is effective safety for operators. Productivity will increase, if operators feel more secure and comfortable. Clemco safety blast accessories protect the blast operator from excessive heat, cold, dust, and noise.

Comfort Vest

The Clemco Comfort Vest is a lightweight, one-size-fits-most personal protective garment for warming or cooling industrial workers exposed to stressful hot and cold environments indoors or out.

Operates on compressed-air supply
